Start your adventure From the heart of South Australia

Adelaide is the perfect base to explore the best of what Australia has to offer including spectacular coastlines, desert-scapes, islands teeming with wildlife and some of the oldest mountain ranges on Earth. No matter what direction you head in, you'll find something uniquely Australian.

Camping

The Flinders Ranges is one of the best places to go camping and experience the Australian outback. You will see open desert, lakes, wildflowers and wildlife, historic towns and rich Aboriginal and European history. Or head to the Yorke Peninsula and camp at one of the picture perfect beach spots along the coast. And if you want somewhere closer to home, Kuitpo Forest offers a nature escape with camping grounds and walking trails.

Wildlife

Get close to Australia's native animals in the Adelaide Hills. At Cleland Wildlife Park you can wander among kangaroos, wallabies, emus and koalas. Or hop on a ferry and head to Kangaroo Island, for native forests, beautiful beaches and wildlife sanctuaries. But you don't have to go to a wildlife park to see Australia's unique animals - there are plenty of places where you can see our native animals roaming free.

Coastline

South Australia boasts more than 3,800 km of stunning coastline. It's the home of long summers and stunning beaches so take a trip down the southern coast and spend the day at some of the most beautiful, unspoilt and uncrowded beaches in the world.

“ My advice to a student considering coming to Adelaide and studying at UniSA? Go for it! You won't regret it, it's a once in a lifetime experience! ”
